

# FLAME WORK EXPERIENCE

## YEAR 11 AT VODAFONE EGYPT

NOVEMBER 2018

Year 11 FLAME Students had an amazing week of work experience at Vodafone Egypt. Our students worked in four different departments: HR, Marketing, Finance and Technology, shadowing professionals and completing daily tasks during their time spent there.

EBIS has received excellent feedback from Vodafone; Year 11 students have shown a sense of responsibility, professionalism and integrity that we are very proud of.

MS. Farah Aboelela, HR Senior specialist at Vodafone said *"Exposing Students to the work place and introducing them to work at different departments is very important as it helps us guide them as to which career path best suit their capabilities. It also helps us to spot future hires and talents that we would like to have at Vodafone."*

We asked some of our students what they enjoyed about work experience;

*"I really enjoyed work experience week! I loved working in HR and interviewing applicants over the phone"*-Khaled Ashraf- Year 11

*"I am impressed with the idea of open work space in Vodafone; it surely improves internal communication and creates a friendly environment where employees are happy to take part in"* -Selina Baher- Year 11

*"I enjoyed my work experience week a lot, I got to experience many of the topics I study in my Business course and see how people operate and interact in companies"* Maya Sameh- Year 11

*"I have enjoyed my work experience week; the highlight of the week was working in the Marketing department as they are really good at it. I also learned that I can work this summer with them in HR, which I am super excited about"* -Karim Baher- Year 11

The students truly benefited from this work experience opportunity, it helped them discover different options and routes that they can consider for their future careers. Some students even managed to secure a summer job through the connections they had made there. We would sincerely like to thank Vodafone for the continued support.
